

Talladega Superspeedway RULES and REGULATIONS

SAFETY FIRST AND ALWAYS / Obey the rules at all times!

“Violators will be escorted off the track and out of the event”

Folks, this is easy. Our focus is to raise money to support our veterans in need. We will not allow anyone to jeopardize our cause. What we do at Talladega is not FUN if it is not SAFE! We cannot afford anyone, not anyone, to break the rules or otherwise detract from what we are here to accomplish. Please, please help us be successful! And, if you see something you don't think is safe, immediately contact a volunteer or V4V staff member.

General Talladega Superspeedway Rules:

- 1. No alcohol or illegal substances allowed on the premises.**
- 2. Pedestrians have the right-of-way at all times.**
- 3. The safety crew is the ultimate authority for track operations;** It is strongly advised that under no circumstances are you argue with Talladega staff.
- 4. No Trailers will be allowed into the track area. As you enter the track at the guard building, a designated area has been established for you to offload your car. If you have a trailer car, you will enter in the pass through lane, unload your car and then get in line with your designated company group. This will be strictly enforced.**
5. Drive on authorized roads only; we do not have access to the whole infield.
6. Pay attention to posted speed limits, most are idle only.
7. Park in authorized areas only, violators may be towed at owner's expense.
8. Do not litter...anywhere! ☺
9. The safety crew's word is final, no exception and, no ifs, ands, or buts.

On Track Rules:

- 1. DO NOT pass the safety vehicle leading the session group FOR ANY REASON.**
- 2. Maintain a minimum speed of 70 miles per hour at all times. Keep up the pace. (The turns are “comfortable” at around 80 to 90 mph)**
- 3. Do not pass** the vehicle in front of you as long as it is on the track.
- 4. No Racing!**
5. If you have a problem, do not stop on the track, pull below the yellow line on the straight-away and try to make your way to the pit road, if possible.
6. If you must make an emergency stop, do so only below the yellow line and, do not get out or exit your vehicle unless well off the driving surface below the yellow line.
7. Maintain a safe distance between you and the car in front of you.
8. Stay above the yellow line on the track in the corners.
9. Stay out of the top lane of the track to avoid debris on track.
10. Drive responsibly at all times.
- 11. DO NOT post** evidence of your speed on social media. (More on this in person at the safety meetings).
